

When:

Saturday,
November 16th,
8:30am-2:00pm

Where:

BHS Lower Library,
123 Cambridge St,
Burlington, MA

Devilbotz Presents: “How to Model Almost Anything”

Join us for this workshop lead by experts from Team 2876 and PTC on the benefits of 3D modeling in CAD. Learn how it can help your team improve their overall design process and shorten the time required to make “smart” design decisions. You’ll leave knowing all the basics of 2D design, 3D part modeling, and 3D assemblies with full kinematic motion.
